## Our school initiatives are on track to meet or exceed our targets

During 2016, we focused on maximising the benefits of this funding for our students. After reviewing our 2016 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Provide focused and intensive teaching for students requiring additional support to demonstrate achievement against the year-level achievement standards.
- Provide professional development and coaching to ensure teacher aides are able to provide targeted and scaffolded instruction of essential literacy concepts and skills to small groups
- Engage the services of an experienced teacher to release a teacher to develop programs/materials to use in working with specific students on particular learning goals and to provide professional development to staff in gradually shifting responsibility to students, monitoring techniques and extending students' thinking plus create Evidence Based Plans for every student.
- Develop a plan for monitoring early phase literacy and numeracy, including the schedule of Early Start assessments, opportunities for professional conversations regarding student progress and strategies for intervention.
